

NEWLY DESIGNED MEMBERSHIP PLAQUE FOR ALL CHAMBER MEMBERS

(Pick yours up beginning January 26, 2012 at the Chamber's Open House and Launch Party)

Are You Displaying Your Plaque?

*Your San Dimas Chamber of Commerce Membership Plaque
is the best visual example to your customers that:*

1. You are one of the San Dimas Chamber's 400 plus members.
2. You are an involved, vital member of the community.
3. Through your membership, you contribute to the economic development and promotion of business in the San Dimas area.
4. Your plaque should not be in the back of the room, or in the owner's office. It should be prominently displayed to your customers at eye level as they are paying for their goods or services.
5. Your membership plaque is more than a piece of wood. It represents a Board of Directors who volunteer hundreds of hours each year on your behalf to take the San Dimas area business community in the right direction. It represents a professional staff that handles inquiries about tourism, businesses, and the City, mails out relocation packets, compiles economic development information, send information brochures and business directories to residents and the business community. Your plaque also reflects hundreds of volunteers who chair and participate in activities that produce positive results for the community.
6. Next time you see a Chamber of Commerce Membership plaque, thank that member for their participation. If you notice an out of date plaque encourage that business to stay current with their support and when you don't see a plaque invite that person to join the Chamber!

San Dimas Chamber of Commerce
Creating a Strong Local Economy
Providing Networking Opportunities
